

Audiovisual Videoconferencing Systems Integration

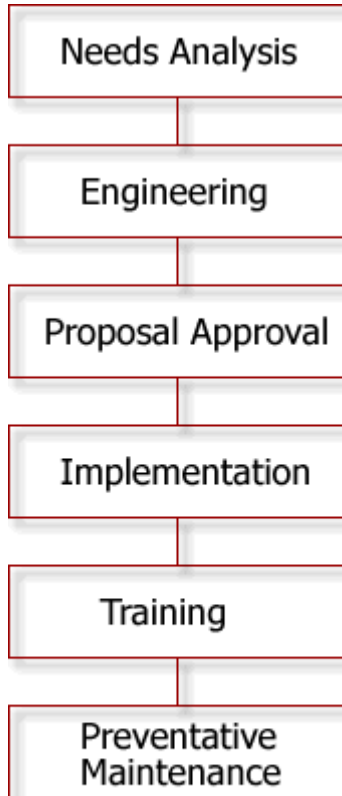

Company Profile

AUDIOVISUAL INTEGRATION

At Avectus, we help our clients achieve their goals through innovative solutions and services...

Six-step process to a successful installation

Audiovisual integration is a process, starting with an understanding of the client's corporate structure, products, and business drivers. As a full-service audiovisual and videoconferencing integration company, Avectus is one-stop shopping for all of your company's presentation and virtual meeting needs. This capability along with our customer-focused approach, gives Avectus the edge over all of our competitors.

We believe Avectus is uniquely positioned to provide the technically advanced capabilities, highly reliable services, and cost effective solutions supported by the most aggressive, customer focused sales and support team in the industry.

Avectus is committed to the long-term relationships we have with our clients. The differentiating factors of Avectus boil down to one common denominator, the people of Avectus and the commitment to our customer.

PRODUCTS & SERVICES
